

# Steel Equipment Company

Steel constructions, With main focus on various engineering and technical solutions

# Our story

1

In beginning

Established in 2015, Steel Equipment OÜ started as service provider in the field of welding, industrial equipment production and steel constructions, with main focus on various engineering and technical solutions. With each passing year, the number of successfully implemented solutions is increasing, as well as the production capacity.  
In 2019 Consortium with Loo Metal OÜ which is strong and progressive ally.  
Employees 2021 - 32 people, which include design engineers, quality engineers, welding engineers and other 8 office employees.

2

Our pride

Steel Equipment is managing the diverse portfolio of technology-based services: development, manufacturing, assembly and welding of conveyor, pipe and industrial equipment. We can also offer you steel structures of varying complexity.

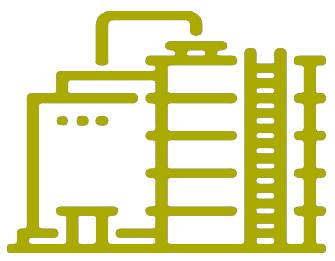

3

Our mission

Help your projects became a reality

# What We are

Our business is divided into five different categories

DESIGN 2D & 3D

METAL ENGINEERING

STEEL SERVICES

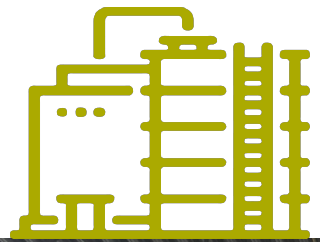

STEEL STRUCTURES

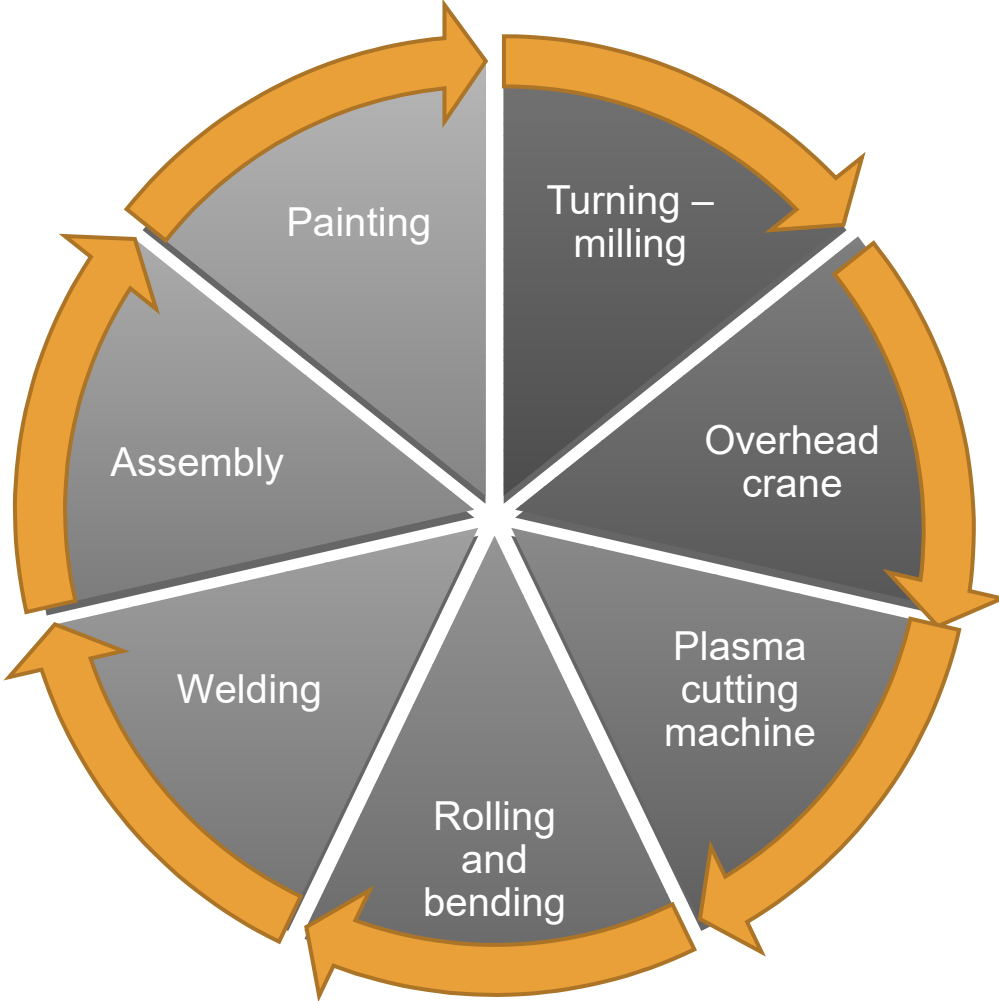

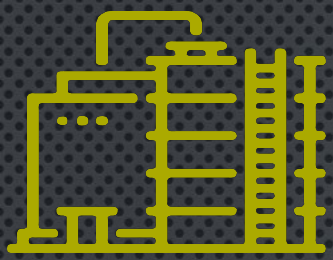

LOGISTICS SERVICES

Workshop for the manufacture of metal structures from carbon and stainless steel.

# our capabilities

## Workshop 4000 m<sup>2</sup> (2015 year)

- Height 12m
- 2 spans 20m each, length 100m

## Overhead cranes

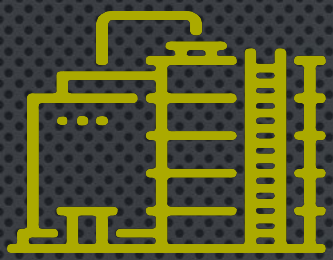

- Cranes 4\*10 tons (simultaneous lifting 40 tons)

## Gate to the workshop

- Height 6 m
- Width 7m, height 7m
- Height 8m

# our capabilities

Thermal cutting of metal (Plasma-Gas as well as Laser)

- Tabel 3300x13 000
- processed metal thickness up to 120mm (Plasma-Gas)
- processed metal thickness up to 20mm (Laser)

## Rolling and bending

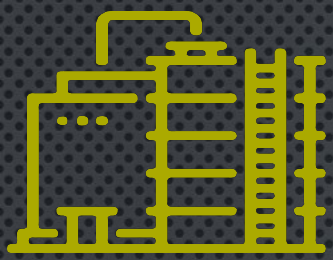

- 4-rollers CNC – 2.5metrs
- Max thickness 12mm

## Bending

- Total wide 3meters
- Max thickness 6mm

# our capabilities

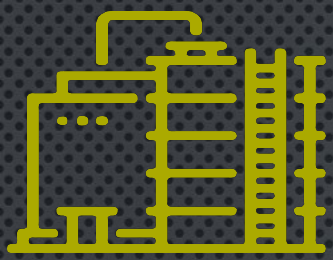

## Turning – milling

## Welding

- Carbon steel;
- Stainless steel;
- Aluminium;
- 135
- 136
- 111
- 131
- 141
- 
- WPS
- Welding engineer
- Welding technologist
- 

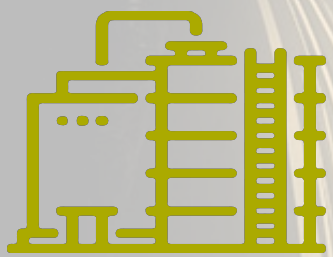

# our capabilities

Assembly

Painting;  
cleaning with abrasive  
blasting;  
ACID Pickling

# list of main orders 2019

- **Preformed thermoplastic sheets production plant PROMAX SP60**

Lytkarino 140080

PKS LLC

Lenina 3

Russia

- **Thermoplastic production plant PROMAX CF02**

Markham Ontario L3R 3J7
